

NEW ACTIVITIES

SUMMARY SHEET (g)

Central Diagnostic Facility

Purpose: To provide centralized diagnostic service for all

25X1A

Method: Use of advanced communications techniques to permit clinical data to be sent to headquarters where a diagnosis could quickly be made and returned to the originator. Headquarters in turn would have a communications link with a local university medical center for the purpose of consultation when indicated and for other professional specialized purposes.

Resources required for each year, FY 1975-1977:

1 Contract Clerk*

\$7,000

(*Increase of 1 in authorized OMS contract ceiling is requested.)
